

Conception de la visualisation cumulative permettant la contextualisation et la corrélation de données architecturales à l'intérieur d'une collection de 15 chapelles rurales de la région PACA. Cette visualisation est un premier pas vers un système visant à la corrélation de données architecturales et sonores collectées *in situ*.

*Design of a cumulative visualization allowing the contextualization and correlation of architectural data within a collection of 15 rural chapels in the PACA region.*

*This visualization is a first step towards a system aiming at the correlation of architectural and acoustic data collected in situ.*

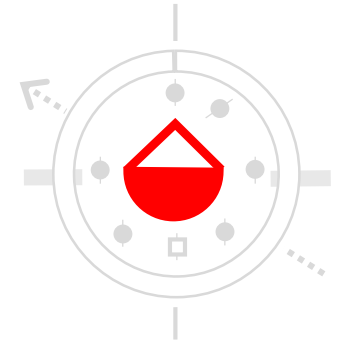

## couvrement de la nef – forme/ matériau des murs

voûte en berceau	
voute en berceau brisée	
voûte lombarde	
charpente	

+ lunettes

voute d'arêtes

## couvrement de la nef - matériau

pierre

bois

céramique  
brique

plâtre +

métal +
